

## BOOSTER WEEK STARTS TODAY 12,500 EXTRA CREDITS GIVEN

From Now Until Next Wednesday Night 1. Booster Week, and 12,500 Extra Credits Are Given With Every Five-Year Subscription or its Equivalent

### BIGGEST OFFER OF ENTIRE CAMPAIGN

Competitive Standing of Workers Published Below—One of Our Best Territories, the Hussar District, Is Not Represented—Some One Is Missing a Chance to Make Some Real Money—Who Will It Be?

Now is the time to get in this "Everybody Wins" campaign, with a "Weekly Payroll" every Saturday, and do it with a shout for the credits are much higher at this time. All workers receive BONUS credits during THIS first week and those added to the "Booster Week" credits make it easy for an entirely new entry to be among the leaders by the end of the "Booster Week."

You have the opportunity of earning in a few short weeks, a new 1932 Ford Tudor sedan, for that many, many people save and scrape for months and even years to acquire. And then there is a wonderful trip to sunny California, the summer playground in winter, where the winner of this prize may enjoy themselves on a rest and cure, or if they so desire they will be awarded the cash equivalent of the trip. There are also four extra cash awards for the next four winners. But the really BIG feature is the fact that you are paid back each week, in cash, \$1.00 out of every \$5.00, or 20 per cent of every dollar you collect in subscription money. YOU CANNOT LOSE.

Get Busy Now! 12,500 EXTRA CREDITS are given for every five-year subscription or its equivalent turned in during "Booster Week," which ends on Wednesday night, February 3rd. This is the time when friends of candidates should throw their support in every possible way for their favorite. Subscribers do not make excess this week. See that your favorite candidate is in the lead. Your subscription costs no more than last year. In other words, it may mean the winning of a Ford sedan by your favorite if you give your subscription while the credits are at the peak this next week. After Wednesday, February 3rd, the "Booster" credits will be called off and subscriptions will never count as much again.

It Can Be Done Who will stand out in the lead? Who will be among the quitters? Who will take advantage of the "booster and bonus" credits now in effect and make the next week a BANNER week for themselves? Who will throw up the sponge because of bad weather, or find that a little work is required? Next week's Mail will tell "lots!" Watch for it!

Remember that "Everything worth while is hard to put over, but re-

## THREE MORE GAMES WON BY JUNIORS

Hussar Junior Hockey Team Win from Hussar, Bow Slope, and Westman. Undeclared Record so Far This Season.

The Bassano junior hockey team continued to defend their unbeaten record. During the past seven days they have won three more games, making a total of eight victories for the season, with one draw and no losses. The last three victories were scored over Bow Slope last Friday, Jan. 22, with a 3-1 score; Sunday they again won over Hussar 3-1; Wednesday they defeated the Rosemary team 4-0.

## NO FANCY CLOTHES FOR THIS DANCE

No fancy clothes for the W. I. whist drive and dance to be held Friday evening, January 29, in the Masonic Community Hall. It is to be a house dress affair for the ladies, and the gentlemen may come in their ordinary suits.

The evening's program will consist of whist from 6:30 till 10:30, then the lunch followed by dancing. The ladies extend an invitation to everybody to come, and they promise a good evening's entertainment.

## number also. IT CAN BE DONE!

Come on, now! Let's do it! For Your Convenience For the benefit of subscribers and candidates, we have inaugurated a system whereby subscribers may mail or bring their subscriptions to the Campaign Department in the Mail office. Receipts will be issued and your favorite worker will receive his or her credits on the next published report.

This will save many subscribers the trouble and inconvenience of hunting up their favorite in person. Candidates may also tell their friends that they may leave their subscriptions at the Mail office for them. Any subscriber wishing to leave a message for a candidate may do so by phoning 19 and Mr. and Mrs. Baker, who are in charge of the campaign, will gladly deliver the message for them. This service is free and you are invited to use it.

## Courtess News

Mrs. Howard Ferguson has been spending a few days in Glen with her daughters, Mrs. V. Pollock and Mrs. S. Sorenson.

Mrs. S. Sorenson entertained a number of country children on Saturday in honor of her daughter, Ellen's, sixth birthday. The children played games and in the evening were served a delicious lunch. Miss Bunty Ferguson assisted Mrs. Sorenson.

A number from Courtess attended the dance at Latham Friday evening. Mr. and Mrs. Goudie came, near having a severe accident when their car overturned Friday evening, but they escaped unhurt and the car was only slightly damaged.

Mr. Hoge was asked for supper at the Goudie home on Tuesday evening of last week.

A number of children have been out of school on account of colds.

Mr. and Mrs. C. R. Heist and Mr. and Mrs. G. Goudie and Duffin and Marianne were visitors at the Siusse home Sunday afternoon.

## ICY ROADS CAUSE CAR ACCIDENTS

Treacherous, icy roads are blamed as the cause of three automobile accidents near Courtess last week. The chink winds and a warm sun had melted all the snow on the road, and with subsequent freezing the highway was covered with a smooth sheet of ice.

Only one serious injury resulted from the trio of accidents. George Woodward of Brooks, who was driving west on the main highway near Courtess when his car slid off the road and over a ditch, was injured.

Woodward received a cut on the right hand and required several stitches. He was brought to the Bassano hospital for a few days. Considerable damage was done to the new Chevrolet coupe owned by Rev. Dr. Fitzpatrick last Wednesday when the car left the road and turned over in the ditch a couple of miles east of Courtess. Rev. Fitzpatrick was accompanied by John McIntosh, M. L. A. of Brooks. Both were badly shaken up, but received no serious injury. One wheel of the car was smashed, and the fenders and top badly damaged.

Geo. Goudie upset his Ford sedan on the Courtess road last Friday. He was travelling at a low rate of speed when the car skidded off the road and upset in the ditch. The car was only slightly scratched, and no one was hurt.

## SUBSCRIPTION PRICE OF THE MAIL REDUCED

During the "Weekly Payroll" subscription drive now being conducted by the Campaign Department, taken into consideration the general financial conditions of the territory, and are making a reduction in the price of the paper if more than two years are paid. Following is the subscription price for the different years and the number of credits your favorite worker will receive if paid during the campaign.

1 year	\$2.00	5,000
2 years	\$4.00	10,000
3 years	\$6.00	60,000
5 years	\$10.00	100,000

The above schedule of credits is in effect until February 13, after which time they are reduced.

You will notice that if you pay three years it will only cost you five dollars. A five-year subscription can be had for \$10.00, or at the rate of \$2.00 a year, which is a saving of \$8.00.

These prices are of particular interest to those subscribers who are a few years in arrears, as they can get the reduced rate by paying for a few years in advance. These prices apply to both new and renewal subscriptions.

Short Time Only These reduced rates will only be in effect during the campaign which ends March 2nd. After that time all subscriptions will be at the usual rate of two dollars a year.

If you are in arrears to The Mail, pay it up now and while you can get the reduced rate you better pay a few years in advance. These prices apply to both new and renewal subscriptions.

The date that your time expired is on the label of your paper each week, following your name. Look at it right now and see how many.

## FIVE VACANCIES TO FILL IN CIVIC BODIES

Three Councillors Required—Two School Trustees to be Chosen—Elector's Annual Meeting, Friday, January 28.

There is little if any excitement in Bassano over the forthcoming civic annual meeting and nominations a few days following. No public dissatisfaction has been voiced concerning the administration of the school affairs or the town's business. Apparently the electors are fairly well satisfied with the civic government, they have been getting.

The elector's annual meeting will be held in the Town Hall, Friday, January 28, at 11 a.m. At this meeting the annual statement will be read, and the chairman of the various committees of the council will give their reports for the year.

Nominating for both council and school board will be received Monday, Feb. 1, from 11 a.m. till 12 noon. There are three vacancies to fill in the town council, Councillors Dr. H. S. E. L. Stewart, and H. A. Holmes having completed their two-year terms of office. These vacancies must be understood as being willing to stand for nomination.

W. L. Flanagan and Harvey Smith are the only candidates for school board. They are both prepared to serve again as school trustees if their services are desired.

If an election is necessary it will be held one week following nomination day.

Pair Grounds Trustees—Chas. McKinnon, H. T. Johnson, M. R. Milroy, W. S. Playfair, J. Menzies.

Auditor—R. A. Travis

The other committees will be appointed by the executive.

Was Active Year The reports turned in by the various committees showed the board had a very busy year in 1931, and much good work had been accomplished.

The work of the public affairs committee included the obtaining of afternoon express delivery; adopting the Wednesday half holiday; arrangements for the trail to the foot ferry improved and other miscellaneous matters. This committee also gathered some valuable data respecting the favorable location of Bassano as a warehouse point.

The annual report of the fair grounds trustees was turned in some weeks ago. This committee has made \$400 on hand.

The chief activity of the entertainment committee during the year was the holding of a banquet early in 1931 for the members of the board and their ladies.

The tree planting and auto camp committee placed 603 trees on the streets and in the auto camp last spring, spending \$31.90 on the purchase of trees. A cook house was built at the auto camp, deer trees replaced and fence posts put in. A total of \$77.50 was spent on the auto camp.

Old buildings were dismantled in the cemetery, dishes improved, and a general improvement made in the cemetery grounds. The sum of \$137.45 was spent on the cemetery.

The swimming pool committee reported a very successful year, and showed a net profit of \$40.00 on the year's operations.

The sugar beet committee was not active during the year, but the president, as secretary of the Bow Valley Sugar Association, kept in close touch with the sugar beet situation.

Mr. McLaws reported that several deputations had waited on federal government with a view to getting assistance for the industry, at the mill with failure. He said the matter would come up in the provincial house at the next session, and the effort is to be made to get help from this source.

Good Financial Year The secretary-treasurer read the financial statement for the year closed Jan. 21, 1932. The statement showed the board to be in a sound financial position.

## Still Driving at Ninety

What is the retiring age for drivers?  
If you take Bluebird, Manito  
ba, as an example, you will not  
get the retiring age below 90 years  
of age. At least, there is one man  
over 90 who still drives his own car  
in Bluebird. William Waller gets  
a great deal of enjoyment out of  
driving his own automobile.

## Twisting Plugs in Engine

A spark plug tester, based on an  
entirely new principle and the first  
device to successfully test spark  
plugs in the engine under its own  
power, compression, and ignition  
conditions, is being introduced by  
AC Spark Plug Company. The new  
tester enables the service man to  
show his customer the true condi  
tion of spark plugs, without remov  
ing them from the engine. All the  
testing is done under actual engine  
running conditions with the car's  
own ignition system. The plugs  
are tested while hot, without re  
moving them. This is of extreme  
importance because most spark  
plug troubles occur when the plugs  
are at their full operating tempera  
ture. This condition cannot exist  
after the plugs are removed from the  
engine.

## "OLD CROCKERS" TESTED

Out of 51 motor cars all built in 19  
04 or earlier, which took part in  
the London to Brighton run in Old  
England last month, only seven failed  
to finish. The run is an annual  
event, organized by the Royal Auto  
mobile Club, to commemorate the  
coming into force of the Highway  
Act, 1896, which abolished motorists  
from the necessity of being proceed  
ed by a constable carrying a red flag  
and only four of the nation's  
best cars were awarded to all cars fin

ishing the London-Brighton run in  
seven hours.

## Figure the Average Mileage

If the distance travelled in Cana  
da last year by motor vehicles were  
placed end to end it would make  
a total of 2,000,000,000 miles, a very  
respectable distance, even in stellar  
space. To run this enormous mile  
age Canadian and visiting motorists  
purchased 500,000,000 gallons of gaso  
line.

## Toward Punctureless Highways

Accidents due to punctured tires  
have caused the Michigan highway  
department to experiment with a  
magnetic machine to pick up pieces  
of metal from roads. The machine  
which is a rotary electro magnet  
hitched to the back of a truck, has  
operated over the roads of southern  
Michigan since May.

Every great nation of modern  
days is the compound of diverse  
racial elements of a bygone day.

## SEED CLEANING

A new system of cleaning seeds,  
which may prove of material value  
to farmers, has been discovered by  
Professor F. C. Dyer and H. L. Mc  
Clelland, in the new milling labora  
tories at the University of Toronto.  
It is officially announced. They have  
been able, it is said, to reduce weed  
seeds in alfalfa, sweet clover, red  
clover and clover to an infinitesimal  
ly small number. Under the new  
process, Professor Dyer and Mr. Mc  
Clelland have been able to take al  
falfa containing 800 catch fly seeds  
to the ounce and clean it until there  
remained only four of the noxious  
weed seeds.
